PROJECTS

PORTFOLIO WEBSITE

Project | Code

- Designed and developed a personal portfolio website showcasing my skills, projects, and experience.

- Implemented a responsive user interface using **HTML, CSS,** and **JavaScript** for optimal viewing on different devices.

- Included a contact form with Node.js to facilitate easy communication with potential employers and collaborators.

- Deployed the portfolio using **Vercel**, ensuring it's accessible to a global audience.

BLOG WEBSITE (Concept)

Project | Code

- Designed a modern and user-friendly concept for a personal blog website via **Figma**.

- Developed the frontend using HTML and CSS, ensuring a **responsive** and visually appealing layout.

- Utilized JavaScript to enhance a basic code-side Content Management System (**CMS**) for easy article management.

- Incorporated an SMTP **API** for the subscribe section, allowing users to receive email updates on new blog posts and site announcements.

- Deployed the website using **GitHub** pages to make it visitable for those who want to view the project.

EDUCATION

B.Sc. Software Engineering

University of Sakarya

Expected graduation date 2026
